# COMMAND GRILLE®

Pro-gard's patented Command Grille® is designed for the 2020 Ford Police Interceptor Utility and 2021 Chevy Tahoe PPV offers the perfect lighting solution for agencies that have a "No Push Policy" or do not have a need for push bumpers but still want full intersection coverage. The sleek contoured design provides the perfect platform for agencies to quickly and easily install highly visible, front scene lighting without having to remove the vehicle's front fascia.

2021 Chevy Tahoe Command Grille® shown with Whelen ION T-Series and ION Mini T-Series lights installed.
