HANDGUN LOCKER

The Handgun Locker is a secure solution for law enforcement professionals. Crafted from tough 14-gauge steel, this locker offers three access options: fingerprint detection, keypad entry, and key override. Its anti-prying features ensure enhanced security. The compact size of the Handgun Locker fits under most vehicle seats or can be mounted directly to various flat surfaces. Designed for convenience and safety, this locker is an essential addition for agencies prioritizing firearm security.

FEATURES

- » 14-gauge steel construction
- » Fingerprint, keypad, and key access
- » Anti-prying design for enhanced security
- » Compact size fits under most vehicle seats or can be mounted to various flat surfaces
- » 47" braided cable for secure attachment
