INSTALLATION GUIDE

3G5715
SELF SUPPORTING STAND
2015 - 2020 CHEVY TAHOE

# Pro-gard™
PRODUCTS LLC.

STRONG | RELIABLE | SECURE

3G5713 MOUNT BASE

I. Refer to the diagram above to verify all parts were received.

II. The following tools will be required to complete the installation:

1. 5/32 Hex Key   2. 18mm Socket   3.T-45 Torx Bit

III.Read all instructions carefully before starting the assembly process.

NOTE: *Locate all wiring, fuel lines, brake lines, and /or cooling lines before drilling holes or installing any fasteners.*
IV. Mounting Base Installation

Figure 1.

A. Position both the driver and passenger seats as far forward and up as possible. Remove the (2) inner plastic guards located on the rear of the front seats.

B. Using a T-45 torx bit to remove the inner seat bolts located on the passenger and drivers side. Refer to Figure. 1

C. Loosen the second row seat frame bolts located on the floorboard of the vehicle using a 18mm socket. Tilt the second row seats backwards slightly to allow installation of 3G5715U-01. Align the slots in the base with the inner seat bolts. Figure. 2
D. Place 3G5715U-05 under the drivers side seat track and align the slot with the hole location for the OEM bolt. Loosly secure the OEM bolt back into location. Align this bracket with 3G5715U-01. Secure using the provided 3X03 bolt and 3X12 washer. Repeat the process for the passenger side using 3G5715U-06.

E. Ensure all bolts are tightened firmly.

V. Installation Complete

Step #1 Loosen seat frame nuts

Step #2 Tilt seat back for clearance

Step #3 Slide base under seat frame
