# AOI ELECTRICAL SIDE CURTAIN AIRBAG ON/OFF SWITCH

Use rigid wing partition filler panels without the worry of them shattering from side curtain airbag deploys

Our patented Side Curtain Airbags On/Off Control Switches provide officers the solution to perform without the threat of damage to themselves and vehicles when their airbag is deployed. The side curtain switch protects after-market mounted equipment and uses rigid wing partition filler panels.

## SIDE CURTAIN ON/OFF SWITCH FEATURES

- » Highly visible, LED telltale light clearly indicates if airbag protection is turned on
- » The small profile box fits easily under the dash or other confined spaces
- » Key operated switches can be turned off to protect equipment mounted in the airbag deployment zone or on to protect a passenger seated behind the airbag
- » Each switch is tested to 100,000 cycles to ensure quality and reliability
- » Most municipal insurance plans compensate for airbag deactivation switches
- » NHTSA allows vehicles used in emergency situations to install frontal airbag deactivation switches
