CARGO STORAGE FLOOR

First compartment is ready to store your weapons, equipment, and duty gear.

Second compartment houses a removable electronics tray.

CSF creates an elevated floor in the cargo area of the 2021 Chevy Tahoe.

A two-compartment storage system designed for the Chevy Tahoe, the Cargo Storage Floor expands the cargo area, enabling officers to securely stow a wide range of equipment, weapons, and electronics. The CSF creates an elevated floor in the cargo area, providing the convenience to readily store and access weapons and gear. The unique hinged storage compartment is installed with push-button latches and gas struts to easily open and close as needed.

FEATURES

- » Creates an elevated floor in the cargo area allowing additional gear to be stored on top of the storage floor
 - » Made of powder-coated 14 gauge steel
 - » First compartment features two push-button locking latches and gas struts
 - » Second compartment screws shut to remove easy access to vital electronics
 - » Easy to install, securely mounts directly to the floor using existing OEM mounting points
 - » Mounts with or without our Cargo Barrier
 - » Works with OEM seats (PPV/SSV)
 - » Works with Cargo Storage Drawers
 - » Total weight of 133 lbs.
- Provides unique storage areas**
- » **First Compartment:** Lockable area for storing sensitive weapons, equipment, and duty gear
 - » **Second Compartment:** Stores electronics with a removable electronics tray
