# HD FENDER WRAPS

Shown on the 2021-Current Chevy Tahoe

Our all new HD Fender Wraps provide law enforcement the best solution when it comes to officer and vehicle exterior protection. Engineered from high strength tubular steel, they are designed to provide durability, visibility, and maximum coverage to the front of the vehicle. Each side is symmetrically welded with minimal installation modifications to the front fascia of the vehicle and is designed to work seamlessly with the Pro-gard Hd Push Bumper.

## FENDER WRAP FEATURES

- » Easy to install, comes with two brackets
- » Replaceable rubber strips
- » Only need to drill 2 holes in the fascia to install
- » Minimal installation modifications to vehicle
- » Thin Welded Tubular steel structure
- » Mounts to Pro-gard existing push bumper holes
- » Lightweight durable tubular structure adds minimal weight to the front of the vehicle
- » Provides extra coverage to the front fascia
- » Easy to take on and off when needed, each side is Symmetrically welded
- » Works in conjunction with our HD Push Bumpers
- » Currently available for the 2021-Current Chevy Tahoe & 2020-Current Ford Utility
